

Early Childhood Education Degree

Administration of Early Care and Education Programs Emphasis

Associate of Applied Science

The associate of applied science in early childhood education is a degree option for students seeking to enter a rewarding career working with young children and their families. This practitioner oriented program has a degree emphasis in three fields: administration of early care and education programs, preschool and infant/toddler. This gives the student the opportunity to select their educational experience based on their specific interests and allows for greater learning in a specific area of concentration.

Degree Outcomes

Students completing the degree will:

- Fulfill the requirements of the Associate of Applied Science.
- Demonstrate competency in their specified emphasis.

Emphasis Outcomes

Students completing the emphasis will:

- Demonstrate the scope of knowledge and skills based on the five National Association for the Education of Young Children's (NAEYC) Associate Degree Standards. These include promoting child development and learning; building family and community relationships; observing, documenting, and assessing; teaching and learning; and becoming a professional.
- Demonstrate a scope of knowledge and skills based on the administration of early care and education emphasis. These include understanding child development; guiding young children; developing professionalism in the ECE field; developing and implementing curriculum for children birth through preschool; working with families and the community; understanding children with disabilities; observing, documenting and assessing young children; supervision and management of staff within an early care and education facility, administration of an early care and education facility, and various field experiences.
