### **FOR PROBLEMS:**

If there is an error message reading "Waiting for Network Controller" after a power or network outage, completely shut down the machine and wait at least 5 minutes.

Turn the machine back on, but do not touch anything until the machine prints a configuration sheet. This is the signal that the machine is now operable. If still experiencing problems, contact the help-desk at [helpdeskphonesupport@tmcc.edu](mailto:helpdeskphonesupport@tmcc.edu).

**If still experiencing problems call XEROX SERVICES 800-821-2797**  
(You must provide the machine serial number when placing the call.)
