**For Problems:** If there is an error message reading "Waiting for Network Controller" after a power or network outage, completely shut down the machine and wait at least 5 minutes. Turn the machine back on, but do not touch anything until the machine prints a "configuration sheet." This is the signal that the machine is now operable. If still experiencing problems, contact the help-desk at [helpdeskphonesupport@tmcc.edu](mailto:helpdeskphonesupport@tmcc.edu)

**If stilling experiencing problems call Xerox Services 1-800-821-2797**

(You must provide the machine serial number when placing the call.)

For paper or supplies, contact Kathy at 674-7561 or [kutchinson@tmcc.edu](mailto:kutchinson@tmcc.edu)
