

HOW TO DOWNLOAD SOFTWARE FOR HOME USE

Establish a remote connection to the TMCC network

1. Currently, Symantec anti-virus software is available for download. TMCC employees/emeritus will first need to use our Cisco VPN to create a remote connection to the TMCC network. See <http://www.tmcc.edu/ito/helpdesk/portal/>

Connect to the TMCC Software Download Portal

2. Once connected, to the TMCC network then you would connect to <http://kbox.tmcc.edu>. This will have software that you could download (specifically Symantec) for home use.
 - a. Go to: <http://kbox.tmcc.edu/>
 - b. Login (username): Use your TMCC network login username
 - c. Password: Use your TMCC network login password
 - d. Organization is "ADMIN".
 - e. Click the "Login" button.

Welcome to the TMCC Software Download Portal

Please use your TMCC username and password to log in. In the Organization field type in the word "admin" without quotes.

Once logged in, you will find downloadable software packages for your TMCC and home computer. License restrictions apply. Please contact the TMCC Helpdesk for further information. (673-7800 or helpdesk@tmcc.edu)

The "My Computer" tab offers additional information about your TMCC workstation. Your home computer will not be able to display any information here.

Login (user name):	<input type="text" value="jdoe"/>
Password:	<input type="password"/>
Organization:	<input type="text" value="ADMIN"/>
<input type="button" value="Login"/>	

- f. Once you have successfully logged into the TMCC Software Download Portal, you will see software that is available for download. Only software with 'Home Use' in the title is available for download for home/personal use.

Software Title [categories]	Version
Google Cloud Connect for Microsoft Office	2.0.2026.3768
Home Use - Symantec 32bit	12.1
Home Use - Symantec 64bit	12.1
