TMCC TSA Courses

CRJ 108: Introduction to Homeland Security

This course will introduce students to the vocabulary and important components of Homeland Security. We will discuss the importance of the agencies associated with Homeland Security and their interrelated duties and relationships.

CRJ 145: Transportation and Border Security

This course provides an overview of modern border and transportation security challenges, as well as different methods employed to address these challenges. The course covers a time period from post 9-11 to the present. The course explores topics associated with border security and security for transportation infrastructure, to include: seaports, ships, aircraft, airports, trains, train stations, trucks, highways, bridges, rail lines, pipelines, and buses. The course will include an exploration of technological solutions employed to enhance security of borders and transportation systems. Students will be required to discuss the legal, economic, political, and cultural concerns and impacts associated with transportation and border security.

Objectives: This course provides students with a knowledge level understanding of the variety of challenges inherent in the transportation and border security.

CRJ 261: Intelligence Analysis and Security Management

This course examines intelligence analysis and its indispensable relationship to the security management of terrorist attacks, man-made disasters and natural disasters. It also explores vulnerabilities of our national defense and private sectors, as well as the threats posed to these institutions by terrorists, man-made disasters, and natural disasters.

Objectives: Students will discuss substantive issues regarding intelligence support of homeland security measures implemented by the United States and explore how the intelligence community operates.

Faculty Credentials: Cannot be a current TSA employee. Instructor must have practical career experience with Homeland Security and/or Transportation Security with an appropriate bachelor’s degree or higher. Previous teaching experience highly preferred
