Drop-In Tutoring is also available for Math, Biology, CIT, COT and IS courses. Drop-in math tutoring is reserved for students working independently or those that have very few questions. Students who have more than a couple questions are strongly encouraged to make an individual tutoring appointment. Students must still log into the scheduling system, to use math, COT, CIT, or IS drop-in tutoring. Biology drop-in tutoring is for BIO 223, BIO 224, and BIO 251, and is located in RDMT 310.

Workshops are FREE and provide students with tips for academic success such as time management, note-taking, writing strategies, how to use the graphing calculator, math and test anxiety. See our complete schedule of workshops online:
