Dental Hygiene Program
Status: Approval without Reporting Requirements

Dear Dr. Hilgersom,

At its August 2, 2018 meeting, the Commission on Dental Accreditation (CODA) granted the dental hygiene program the accreditation status of “approval without reporting requirements.” The definitions of accreditation classifications are provided at the link below. Below is a summary of actions and additional information.

Dental Hygiene Program Change

The Commission considered the June 2018 report describing a proposed program change for the dental hygiene program. The Commission noted that the report describes that the program will transition to a Bachelor of Science in Dental Hygiene degree awarded upon completion of the program beginning Fall 2019.

Following careful review of the information provided, the Commission adopted a resolution to approve the report of program change and continue the program’s accreditation status of “approval without reporting requirements.” No additional information related to the change is requested from the program at this time. This change will be reviewed at the time of the next site visit for the program scheduled for **2022**.

General Information

The Commission expects institutions to keep the Commission informed as soon as possible of anticipated changes in any approved educational program offered, particularly in the areas of administration, enrollment, faculty, facilities and curriculum.
