## INTERNSHIP OPPORTUNITIES

An internship program offers students an opportunity to enhance classroom and lab learning with “real world” work experience. Each student is required to manage their own internship search process with assistance from the Internship Coordinator. If interested in pursuing an internship visit <http://www.tmcc.edu/career-center/internships/> to learn more.

## Preparing for a career in English

English students have a wide and exciting selection of careers. You are trained to write well, to organize ideas in a logical way, and to develop arguments. You can analyze complex information, research, and critically read and observe. With these skills, you can work for book publishers, hospitals, television networks, advertising firms, and the government. Employers, graduate schools, and professional schools often seek out well-rounded English majors because they are versatile, able to utilize their training as writers, thinkers, editors, and teachers in fields such as medicine, law, business, media, and public service.

Whether you're business-minded, creative, academic, or not quite sure, the field of literature has something for everyone. While jobs in writing can be hard to come by, English majors are naturally qualified for these positions. Jobs in writing can work alongside the publishing industry, such as writing for a magazine, or can be supplemented by jobs in education, such as teaching Technical Writing.
