

CORONAVIRUS

2019-NCoV / COVID-19

WHAT IS IT?

Novel coronavirus COVID-19 is a virus strain that originated in Wuhan, Hubei Province, China that has spread among humans since December 2019.

The Washoe County Health District is monitoring the issue closely. Please visit cdc.gov/COVID-19 for the most up-to-date information.

HOW DOES IT SPREAD?

- Through the air by coughing and sneezing
- Close personal contact such as caring for, or living in close contact with, a person who is ill

HOW DOES IT NOT SPREAD?

- Through items shipped from China

HOW CAN I PREVENT GETTING COVID-19?

Wash hands often with soap and water

Avoid touching your eyes, nose or mouth with unwashed hands

Avoid contact with people who are sick

Stay home when you are sick

Cough or sneeze into a tissue or sleeve

SYMPTOMS

Fever

Cough

Difficulty Breathing

Severe Respiratory Illness

Symptoms may appear in as few as 2 days or as many as 14 days

**KEEP
IN MIND**

During the 2017-18 flu season, nearly 80,000 people died in the U.S. from influenza. You're more likely to get the flu than COVID-19 and all the above information still applies to keep from getting the flu.

It's not too late to get a seasonal flu shot!
